

New Employee Spotlight

Rhonda Gilbert

Beyond Beaute' warmly welcomes Rhonda Gilbert to our Deer Park Location.

Rhonda's beaute' journey began when she was a guest service representative at our Clear Lake location. As she gained knowledge and experience in the spa business, she was inspired to attend and graduate from The Premier IC&E Institute Of Cosmetology Esthetics & Massage in Houston.

Since then, she has spent her time specializing her esthetic skills in Electrology. Electrolysis is the only method approved by the FDA for permanent removal of unwanted hair. Unlike laser hair removal, electrolysis is effective on all skin types, hair types and hair colors.

The Electrology machine is also effective in removing skin tags, facial capillaries, cherry angiomas, and sebaceous hyperplasia.

Rhonda's motto is, "Do no harm." Her main focus is helping every client feel best in the skin they're in. With a background of 10 years in teaching, her warm and welcoming personality will quickly put you at ease. She is also the Mom of two daughters. Rhonda will also be available for full Aesthetician Services, Airbrush Tanning, and Eyelash Extensions.

We are excited to newly offer Electrology services at Beyond Beaute' Deer Park. Rhonda is available for booking starting Thursday, February 16th.
