

## AIRBRUSH TANNING WAIVER & LIABILITY RELEASE

Before your service today, we want to make certain that you are fully aware of the warnings and potential risks involved. It is essential that you understand and agree with each of the following statements: *(please initial each item)*

### WARNINGS

- \_\_\_\_\_ Pregnant or nursing women should consult with their physician prior to this session.
- \_\_\_\_\_ The spray tan ingredient DHA (Dihydroxyacetone) has been approved only for external application and should not be inhaled or ingested internally.
- \_\_\_\_\_ The FDA advises that airbrush tan users should avoid inhaling or ingesting DHA or letting the solution get into your eyes. When using products containing DHA, such as an all over spray or mist, it may be difficult to avoid exposure in a manner for which DHA is not approved, including the area(s) of the eyes, lips, or mucous membrane or internally. Therefore, it is recommended that you take protective measures such as the following to eliminate eye contact, inhalation or ingestion during your airbrush tan session:
- Using protective eyewear
  - Wearing nose filters
  - Sealing lips with lip balm
  - Wearing protective undergarments
- \_\_\_\_\_ I understand that I may bring my own protective items or borrow/use items that Beyond Beaute provides for this purpose free of charge.
- \_\_\_\_\_ The airbrush tan solution does not contain a sunscreen and does not protect against sunburn. Repeated exposure of unprotected skin to the sun, even if you do not burn, may increase the risk of skin aging, skin cancer, and other harmful effects to the skin.
- \_\_\_\_\_ The bronzing and tanning solutions used during your session have the potential to stain clothing. Beyond Beaute is not responsible for potential stains to clothing or upholstery. Please use caution.
- \_\_\_\_\_ Some individuals in certain circumstances may be allergic to one or more ingredients in the airbrush tan solution. In such a case, please discontinue use immediately and consult a physician.
- \_\_\_\_\_ Be advised that a small percentage of people have skin that does not react favorably to airbrush tanning. For this reason, we DO NOT ADVISE being sprayed for the first time when your appearance is critical (prior to a wedding, special occasion, photographic session, modeling assignment, etc.)

*I agree to hold Beyond Beaute and its employees harmless of any and all liability for medical complications (pregnancy related or not) that may arise from exposure to the airbrush tanning solution. I understand the warnings and limitations of the airbrush tan process and therefore give my consent for an employee of Beyond Beaute to perform the scheduled service on my face and/or other area(s) of my body.*
